A Markup ~~200000~~ OR Clean copy of amended claims is attached.

Examiner has rejected our explanation based on comparisons with Valaskovic patent (US 6190,559). However, the two devices are different. We are using the chromatographic particles, which are larger than the size perforations or incisions in the pipette tip, so that during the sample preparation the chromatographic material does not pass through the perforation.

No new matter has been added and a withdrawal of the rejection is requested.

Herewith, we request 2 months extension for response within second month. A payment by credit card is attached.

If you have any further questions, please feel free to call me. (Tel 410 997 0301)

Thanking you in advance for all your cooperation.
